**REPORT OF THE
CANDIA VOLUNTEER FIRE DEPARTMENT**

In 1976 the Candia Volunteer Fire Department achieved a roster of 45 regular members, complemented by 20 associate members at present.

We responded to 25 calls in 1976, a decrease from 1975. This would not be possible if it were not for the residents of Candia being concerned for the prevention of fires. We would like to take this opportunity to thank you.

The addition to the fire house has been completed, providing us with room for added equipment.

We would like to ask for your continued support in 1977.

THOMAS H. SEWARD
President
Candia Volunteer Fire Department

REPORT OF THE CHIEF OF POLICE

During the year 1976 the police department responded to 1,643 calls for assistance.

The past year has been one of considerable impact and controversy concerning the police department and a great deal of energy has been spent in analyzing the department and its functions. I hope that during this period no one was inconvenienced and that the department lived up to the standard expected of it.

September arrived bringing with it stability to the police department primarily through improved relations between the department and the board of selectmen. Since that time, the police department and the board of selectmen have been working together to improve the efficiency and administration of the department. It should be noted, however, that the period of controversy did have a negative and, hopefully, temporary effect; namely, that the size of this police department went from 13 regular and reserve officers down to 6 regular officers in addition to a matron and the chief. I hope that this condition will only be temporary and that qualified personnel can be found to bring the size of the department back to its former level.

Rarely, if ever, are all of the officers in the department required to be on duty at the same time; however, greater availability and geographical coverage results in quicker response to calls for assistance.

Again this year, we ask for the cooperation of the townspeople to help the department by immediately reporting to this department any unusual and suspicious persons or actions. The department relies on all of the citizens of the town to provide information for the prevention of crimes, deterrence of accidental injury, and apprehension of law breakers.

This year the department will be asking for a new police cruiser. The existing cruiser has gone over 80,000 miles since the town purchased it in 1972. I hope that the citizens of the town will support this request while some value still remains in the old cruiser so that it might be sold by bid to help defray the new acquisition cost.

In closing I would like to extend my sincere thanks to the citizens for their generosity and cooperation shown to this department in the past year, and especially to my fellow police officers for the many hours devoted to this department.

Respectfully submitted,
 ROBERT A. BAKER, SR.
Chief of Police

REPORT OF DISTRICT FIRE CHIEF AND TOWN FOREST FIRE WARDEN

Since its beginning in 1893, the State Forestry Department has recognized the fact that forest fire prevention and suppression is a joint state and town or city responsibility. Local authorities recommend names of persons to the State Forester, who appoints one person as town or city fire warden and several other persons as town or city deputy fire wardens to three year terms.

The local forest fire warden controls the kindling of all outside fires, when the ground is not covered with snow, by issuing a written permit for kindling a fire. Permits are only issued at such times and in such places as the fire warden deems safe.

The State Forest Fire Service trains the local forest fire organization in modern forest fire prevention and suppression tactics. The State also provides backup personnel and equipment for suppression and prevention activities.

The combination of State and local forces has resulted in one of the smallest acreage losses due to forest fires in the United States in the past 20 years.

REPORT OF THE CONSERVATION COMMISSION

The Conservation Commission has met three times during the past year attempting to outline projects to develop the 40 acre lot on New Boston Road into a recreation and nature study center for Candia.

To date we have cleared a pathway through about one half of the property with the help of a few scouts. The Candia troop having cleared the entrance of brush which was burned during a wet spell last summer.

A sign has been made to mark the area and a 50' gallon drum has been labelled for disposal of trash for campers. It is hoped that the citizens will try to keep the grounds respectable and not dump garbage and refuse in the area.

The land has been botanized and plants framed under seran wrap on white cardboard to be displayed in the Bangs Room of the Smyth Library.

The Commission encourages any citizens of the town who are genuinely interested in participating in developing this area to make themselves known as soon as possible. This involves building bridges, clearing grounds for camping and tree farming, bird walks, and labeling trees.

TOWN INCINERATOR

Our new incinerator, voted upon at the 1976 Town Meeting, went into operation on December 22, 1976. The total cost of this project; including one Melrose Bobcat loader, one 40'x40' steel building, site work and the Kelley/Hoskinson Pyrolytic Incineration System (Model 1280/72); is \$78,000.

At this time we are in the process of negotiating a contract with the Town of Auburn for the purpose of incinerating its rubbish. Hopefully, this contract will cover a five year period; contain an escalation clause covering labor, fuel and electricity; and require a two year termination notice. The combined rubbish from both towns will mean the incinerator will be operating five days each week. This is the optimum time of operation to achieve peak efficiency.

The operation of the system was put out to competitive bid with Mr. Lawrence Stevens winning the bid. Anyone interested in the operation is invited to see Mr. Stevens at the site during the following hours:

Wed. - 11:00 a.m. - 5:00 p.m. Sat. - 9:00 a.m. - 5:00 p.m.

REPORT OF CANDIA PLANNING BOARD

Our town is experiencing an acceleration in its growth rate. Obviously, this fact has a great potential for change in the character of Candia.

As an example, for the years 1970-75, there was an average of nineteen building permits issued each year. In 1976 alone, over sixty permits were issued.

The Planning Board is concerned with its responsibility to see that the town's inevitable growth takes place in a manner that will preserve its rural character and at a rate which all of its facilities can handle. Because all of the citizens of Candia will be directly effected by whatever changes take place as our population grows, we felt that a report of our activities should be included in the Annual Town Report.

During 1976, we held twelve regular public hearings and approved twenty-eight subdivision applications that created a total of eighty-four lots. In addition, we met on eleven other occasions, either in special session or with subdividers, reviewing site survey plans or making inspections of proposed land subdivision.

We also made some minor changes in the subdivision regulations, making it easier for two-four lot subdivisions to be approved with a minimum of red tape and made changes which required more detailed and specific requirements in the approval of large subdivisions to be sure the best interests of the town are served.

Throughout New Hampshire, community officials have been increasingly concerned with the legality of land controls and their administration. Sometimes it takes experienced attorneys and court action to answer these questions. They now find that the plan and the ordinance are not enough; these must be supplemented by an informed board or commission, a knowledge of state planning statutes, and familiarity with legally sound administrative procedures.

In September and October, the Municipal Training Consortium sponsored a series of lectures on Planning Law for community officials. Each of our members attended one or more of these lectures. The purpose of the series was to provide local officials in N.H. with basic legal guidance so that they can func-

tion more effectively in their town planning positions and can recognize problems that merit professional legal advice.

We have also availed ourselves of the opportunity to work with the Office of Comprehensive Planning in matters dealing with Candia specifically.

CANDIA MOSQUITO CONTROL DISTRICT

The Mosquito Committee met several times during the summer, collecting specimens of mosquito larva in all sections of Candia. This is an effort to catalog the different types of mosquito that breeds in Candia and the best means to eliminate them

Prof. Burger from the Entomologist Dept. at UNH spent one evening with the committee and since no funds were appropriated for this survey Prof. Burger volunteered his services free. Future consultant fees will be \$100.00.

The professor recommended that the most expeditious way of attacking the problem would be to purchase 4 traps for adult mosquitos to determine the extent and kind of mosquitos in this area to rule out or in the existence of any of the dangerous species associated with encephalitis and dog heart worm.

The appropriation needed to complete this survey would be \$220 for the traps and \$100 for the entomologist.

The committee recommends the amount of \$320 to complete the survey for the coming year and enlists any who would volunteer their services.

SUPERINTENDENT'S REPORT

CANDIA

During the 1975-76 school year the Candia School Board considered better than 125 agenda issues. They dealt primarily with administration, curriculum and finance.

ADMINISTRATION

The Board, realizing the need for the smooth operation of the school adopted a number of policies for its organization and, also, job descriptions for its personnel. Some of these policies concern themselves with public use of school facilities, school board hearings, student use of school facilities, materials, policies of compliance with Title IX, student transportation, management, line and staff relations, tax sheltered annuities, public right to know law, etc.

The Board and Building Committee have worked diligently toward the goal of providing much needed additional space for the students of the district.

CURRICULUM

In maintaining a continuity within the Candia School, we are each year reviewing the adoption of text books, materials, and equipment for Reading, Math, Science, English, Spelling, Handwriting, Music, etc. In the 1975-76 school year, the district adopted a language arts program which included English, Composition, Grammar, Spelling, and Handwriting.

The staff and principal have been organized into committees to review each year that subject area which will be given budgetary consideration. The State Department of Education has more than willingly worked with the committees in establishing workshops and seminars. We have also attempted to co-ordinate our Junior High Programs with the High School Programs as they are being offered in Manchester and Raymond.

FINANCIAL

In the number of years that I have served in the district, I have found the School Board to be very conscious of its tax

dollar. This is as it should be. Many areas such as general supplies, transportation, insurance, supplies for operation of plant, furniture, etc. are sent out for bid, negotiated and re-negotiated; keeping in mind getting the best in quality for the lowest possible expenditure. A major concern of mine is that the cost of high school tuition per student is now twice that of the elementary student.

On behalf of the students of the district, I wish to extend my thanks to the Candia School Board, to the capable leadership of Mr. Thompson, Assistant Superintendent of Schools, and Mr. Timothy Sweeney, administrator of the school and to the staff.

Respectfully submitted,
 DAVID R. CAWLEY
Superintendent of Schools
